

Fox Trac

SNOW MOBILE

A New Snowtime Adventure . . .

MODEL 260B*

MODEL 140B*

For Fun Where the Road Ends!

Break Trail to an Endless Winter Wonderland

When the first snow flakes fall life takes on new excitement . . . the leaves of autumn turn to drifts of white and the swirling blizzard calls out "Fox Trac!" — the answer to a sportsman's dream. These compact, versatile, and trouble-free snow tractors ride over the snow, carry the outdoorsman through drift-choked woods, haul skiers and toboggans up daring slopes, portage hunters and trappers deep into rugged bush country, provide the family with a mechanical dog team that magically transforms winter into something new and fascinating.

MODEL 140B* — Small enough for children to handle, the economy Model 140B goes anywhere larger snowmobiles will go, fits into the family station wagon, tows up to 300 pounds with ease at nearly 15 miles an hour.

MODEL 260B* — Hauls more, goes faster! Built with the same quality components as the Model 140B except for increased track length and additional horsepower, the 260B is perfect for the winter sportsman, farmer, and ice fisherman who demands optimum performance . . . and it's an ideal family-priced fun unit.

*Contoured Windshield Standard on Both Models

Ice Cycle

Skims Over the Ice . . .

Put the 130B in your car trunk and head for fun . . . haul fishing gear, skaters, sleds, toboggans over frozen lakes. Unique floating drive wheel pushes the 130B over the ice like the wind.

work or play - make winter more fun!

The Professional Do-All—

The 380B and 410B are the perfect models for the professional trapper, hunter or ski resort owner. These hustling snowmobiles seat two, side-by-side, in expansive comfort; haul bigger payloads from a smooth-as-glass take-off to exuberating cruising speeds; sneak quietly through dense frozen swamps, ride hours deep into the woods—fish, hunt, trap in areas inaccessible to others, enjoy your summer lake cottage all year 'round. These are value-packed, quality-built, comfort-designed snow tractors made for fast, rugged use.

Exclusive Dual-Cant Positive Ski Control

Identical in chassis design are the 380B, shown above, and the more powerful 410B. Equipped with additional horsepower and featuring a heavier commercial-size torque converter clutch, the 410B offers maximum pulling power with increased cruising speeds for professionals on the move. Both the 380B and the 410B feature wrap-around windshields as standard equipment.

FOX Trac

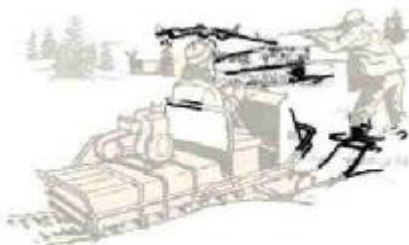

SNOW MOBILE

Mfg. by FOX • Janesville, Wis.

For Rugged Brute Force The 510B—

This undisputed load-pulling champion is a heavy-duty commercial workhorse made for timber cruisers, utility linemen, mountain rescue teams, big ranchers, game and conservation agencies . . . anywhere public safety, emergencies or continuous stress demand dependability—power to pull herculean loads up sharp inclines, stamina to take hour after hour of torturous pounding, ability to withstand the most severe weather conditions. Test it! The 510B will prove its superiority!

SOLD BY:

Ride Over the Deepest, Softest Snow

The 510B is supported by twice as much track area as other units, and is a massive four foot wide to provide the solid stability necessary for pulling nearly a ton of dead weight payload. The big hard working engine supplies the power to prove the superiority of the 510B . . . try it! It's a brutal!
